ON 350°F

Bring your cookbooks into every kitchen, on every phone.

An author partnership with On350 · on350.com

WHY NOW

Your cookbooks live on the shelf. The cooking now happens on the phone.

Searched, not leafed

Home cooks look up “dairy-free dinner under an hour” on their phone before they open a book.

Built for our kitchens

Meat and Dairy labels, Shabbat and Yom Tov menus, and family recipes kept safe.

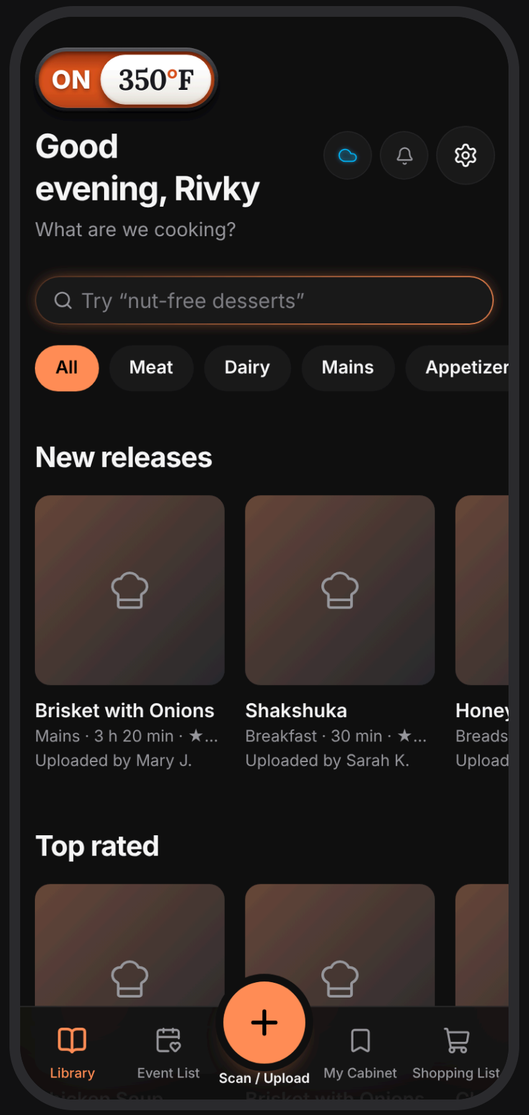

Earning every month

A book sells once. On On350 your recipes keep earning while families cook from them.

WHAT ON350 IS

A recipe app made for the way families cook.

- Search by dish, ingredient, time or allergy
- Meat / Dairy and allergy labels on every recipe
- Scale any recipe from half to triple
- Plan an event and get one shopping list
- Works offline in the kitchen

YOUR COOKBOOK ON ON350

Your name, your books, your readers.

Your own author page

All your cookbooks and recipes in one place, under your name.

Followers hear from you

Readers follow you and get a notice every time you publish.

Full credit, always

Every recipe shows your name and your cookbook.

We do the typing

Send the book file; we turn it into recipes and you approve them.

HOW YOU GET PAID

A monthly share of every subscription, based on real reading.

A real share

A meaningful part of subscription revenue goes into the author pool every month.

Split by reads

Your share of the pool equals your share of real reads that month.

Real reads only

A read counts after 3 minutes on the recipe, by a paying subscriber, with a daily cap per reader.

Clear monthly statements show your reads and your payout.

YOUR WORK, PROTECTED

You stay in control of every recipe.

- **Subscribers only.** Cookbook recipes open only for paying members.
- **You approve it.** Nothing of yours goes live until you've checked it.
- **Your rights stay yours.** Take any recipe down whenever you want.
- **Your name on everything.** Readers always see who wrote it.

GETTING STARTED

Three easy steps.

1

A short call

We show you On350 and agree on terms that work for you.

2

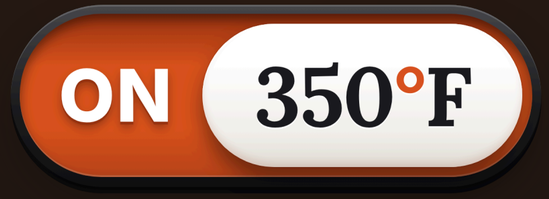

Send your book

A PDF or the files. We build your recipes and author page.

3

Approve and go live

You check everything, then earn every month from reads.

Let’s bring your cookbook to On350.
